Empowering Trust: Digital Transformation in Legal Workflows

Smart Dashboards | **Workflow Automation Bots**

Company

Industry: Legal Tech & Digital Transactions

Challenge:

Veridico wanted to build a secure, AI-powered digital transformation platform for the legal industry. They needed a scalable solution that:
- Provides tamper-proof, transparent legal transactions.
- Leverages AI, blockchain, and bio-metrics.
- Runs seamlessly on mobile & web platforms.
- Offers ongoing support, monitoring, and feature expansion.

Project Overview – Veridico x Solto.ai

Scope of Work:
- Mobile App (Flutter)
- Frontend (React)
- Backend (Node.js with microservices)
- Cloud Deployment & DevOps setup
- QA & UAT Testing
- Ongoing Support & Optimization

Solution Delivered:
- An AI-powered platform for intelligent, data-driven legal operations.
- Seamless multi-platform access (Web & Mobile).
- Secure, scalable cloud infrastructure.
- Integrated workflow automation and predictive analytics dashboards.

Hurdles Faced

- **Integration Complexity –** Combining blockchain, AI, and bio-metric systems into a seamless workflow required deep technical expertise.
- **Scalability Demands –** The client wanted a platform capable of handling high data volumes while ensuring speed and reliability.
- **Security Concerns –** Legal data required multi-layered security and compliance checks.
- **Timeline Pressure –** The platform had to be delivered within a strict launch schedule.

The Team Behind Veridico

A dedicated 6-member Solto.ai team ensured project success:

- 1 Flutter Developer
- 1 React Frontend Developer
- 1 Node.js Backend Developer
- 1 QA Engineer
- 1 DevOps Engineer
- 1 Project Manager

Collaboration Tools: Slack, Zoom, Jira, GitHub

Workflow: Weekly reporting, daily standups, version control

The Team Behind Veridico

- **Weeks 1–2:** Discovery & Planning (SRS, Tech Architecture, UI Mockups)
- **Weeks 3–7:** Development (Backend APIs, Flutter MVP, React Frontend UI)
- **Weeks 8–9:** QA & UAT (Automated + Manual Testing)
- **Week 10:** Cloud Deployment & Monitoring
- **Week 11+:** Ongoing Support & Feature Expansion

Ongoing Support Model

- Dedicated Slack channel with Veridico team
- 8x5 Availability + SLA for critical issues
- Monthly maintenance (security patches & optimizations)
- 24/7 monitoring & alerts (Sentry, CloudWatch, Prometheus)
- Iterative releases for feature expansion

AI Expertise Delivered by Solto.ai

- Agentic AI Systems (LangGraph, CrewAI)
- GPT-powered Legal Assistants
- Workflow Automation Bots
- Predictive Analytics Dashboards
- RAG + Embedding-based Knowledge Systems

Results Achieved

- Agentic AI Systems (LangGraph, CrewAI)
- GPT-powered Legal Assistants
- Workflow Automation Bots
- Predictive Analytics Dashboards
- RAG + Embedding-based Knowledge Systems

Why Veridico Chose Solto.ai

- Proven AI & Automation Expertise
- Skilled & Scalable Development Teams
- Transparent, Agile Workflows
- Long-Term Partnership Mentality
